

FAQ

What surfaces are best for each of the cleaners?

Multi-Surface: Kitchen Counters, Sealed Stone (Granite or Marble), Kitchen Appliances, Sealed Wood

Glass + Mirror: All Glass + Mirror Surfaces including Windows, Car Windshields, Glass Tables and Mirrors

Bathroom: Tub, Tile, Shower, Sink, Faucet, Porcelain.

How do I create my Blueland cleaner?

Making your Blueland cleaner is as easy as 1-2-3.

1. Fill your Blueland bottle with warm or hot water to the line
2. Drop in the tablet
3. Wait until it is fully dissolved to put the nozzle back on. You don't need to shake or stir the bottle--just get cleaning!

How much liquid does one tablet pack make?

One tablet pack makes 20 oz of liquid cleaner.

Does the bottle have to be completely empty before refilling?

We recommend that you finish using the cleaning liquid in your bottle and rinse it with clean water before creating another bottle of solution with a new tablet so that the cleaner will not bubble over during the next dissolve. Each refill pack is designed to be dissolved with water to create 20oz of cleaner and match the exact amount of cleaning liquid our bottle is designed to hold.

Do I need to shake the bottle to dissolve?

Nope. Just dissolve the tablet with warm water in your Blueland Bottle for a few minutes--no shaking or stirring needed!

What is in the Blueland cleaning tablets?

They are bio-based or synthetic derivatives.

Bathroom Cleaner: Sodium Citrate, Citric Acid, Sodium Lauryl Sulfate, D-Glucono-1,5-lactone, Potassium Sorbate, Sodium Benzoate, Polyethylene Glycol, Leucine, Fragrance, Hydrated Silica, Alcohol Ethoxylated, MCT Oil, Polymeric Pink

Glass + Mirror Cleaner: Sodium Citrate, Citric Acid, Sodium Lauryl Sulfate, D-Glucono-1,5-lactone, Potassium Sorbate, Sodium Benzoate, Polyethylene Glycol, Leucine, Isopropylidene Glycerol, Polymeric Blue

Multi-Surface Cleaner: Sodium Citrate, Citric Acid, Sodium Lauryl Sulfate, D-Glucono-1,5-lactone, Potassium Sorbate, Sodium Benzoate, Polyethylene Glycol, Leucine, Fragrance, Hydrated Silica, Alcohol Ethoxylated, MCT Oil, Polymeric Yellow

What is the cleaning bottle made out of?

We specifically designed our Blueland cleaning bottles in acrylic. Our bottle was specifically designed for re-use.

Are your cleaners scented?

Our Glass + Mirror cleaner is unscented while the other two have a light, natural scent (Fresh Lemon for the Multi-Surface and Eucalyptus Mint for the Bathroom)
