What does SABRE® Pepper Gel do?

- Involuntary eye closure, difficulty breathing, facial burning, psychological symptoms (fear, anxiety & panic), more at sabrered.com/effects

When should I use my SABRE Pepper Gel?

- Carry it with you at all times!
- Practice outside and test spray semi-annually with a quick burst into the ground
- Deploy when you feel your safety is in jeopardy or you are attacked, then run and call the police immediately—do not try to capture your attacker
- We recommend replacing your Pepper Gel after deployment, to make sure you're always fully protected.

How do I deploy my SABRE Pepper Gel?

- Grip so that index finger is under nozzle on case (see 1)
- Slip thumb under flip top, press down to fire (see 2)
- Spray from ear to ear across the eyes (see 3)
- Once eyes are affected, aim for nose and mouth
- A stream will reach up to 12' (4 m) in front of you
- Shield face when firing into the wind
- Release pressure to stop firing
- Sidestep and escape to safety

Intended Use

- This product is designed to facilitate the escape from a vehicle in the aftermath of a car crash

How do I use the Safe Escape to cut my seat belt?

- Keep the Safe Escape within arm's reach. Locate and release the product from the car keys if attached
- Slide seat belt into the seat belt cutter on the front of the Safe Escape. The Safe Escape nozzle should be pointed downward and toward you (see 4)
- Pull seat belt tight at waist or chest
- While holding the seat belt tightly, slide the Safe Escape upward to cut through the seat belt. Then use the Safe Escape to release other passengers, small children first, from their restraints

How do I use the Safe Escape to break my car window?

- Keep Safe Escape within arm's reach
- Remove the silicon ring from around the window break on the bottom of the Safe Escape
- Hold the Safe Escape **with your thumb OVER the top of the flip top safety** — WARNING do not place thumb under the flip top safety or you will likely deploy the pepper gel
- Hit the side window with the metal window break tip on the bottom of the safe escape by swinging it like a hammer (see 5)
- Window may need to be hit multiple times to break the window depending on individual strength
- Protect your eyes and face by shielding them with your other hand, and let other passengers do the same. Once the glass is shattered, use the product to get rid of the remaining glass around the window edges
- Do not attempt to use on the front windshield or rear window – use on side windows only

Product Disclaimer

- When using safety tools, basic safety precautions should always be followed to reduce the risk of injury and/or damage. Read all instructions before using this tool! Security Equipment Corporation is not liable for injury, theft, or any other emergency or circumstance emerging as a result of incorrect use of this product. In some extreme cases it may not be possible to escape from your vehicle. There is no guarantee that this tool will prevent serious injury or death. It depends on the severity of the incident and actions/reactions of the person affected. This product is a safety tool designed specifically as a potentially life-saving device and should be used in emergency situations only. Keep away from children. Children should not play with this product. This product is not a toy! Do not strike the product on metal, rock, wood or similar hard surfaces. Do not alter this product. Do not use this product for other purposes. Always protect your face while breaking a glass window with this product. Protect yourself and other passengers from shattered pieces of glass that may be thrown around because of the impact. Please rationally assess the severity of the accident and judge whether or not the use of this product is justified.
- IMPORTANT: Intended for use only with tempered automobile door window glass in an emergency. Device will not break windshields or other windows made of laminated glasses.
- To determine your glass type, look for a permanent marking on the bottom corner of the automobile glass, or consult your owner's manual. AS1 stands for laminated glass and AS2 stands for tempered glass.
- Warning: Used cars may have replacement windows made of unknown materials. In such case, the car's user manual will not be helpful in identifying the type of material. In this case please seek advice from an auto dealer or a repair shop.

LIMITED WARRANTY: If this product fails to work at any time before its expiration date due to a manufacturing defect, return it to Security Equipment Corporation for a replacement. This warranty does not cover products which have been abused, altered or damaged. TO THE EXTENT PERMITTED BY LAW, SECURITY EQUIPMENT CORPORATION DISCLAIMS ALL OTHER IMPLIED OR EXPRESS WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.

LIMITATION OF LIABILITY: This limited warranty is your sole remedy and SECURITY EQUIPMENT CORPORATION shall not be liable for any damages, whether direct, indirect, incidental, special, consequential, exemplary or otherwise, including lost revenues and lost profits, arising out of any theory of recovery, including statutory, contract or tort. In no event will SECURITY EQUIPMENT CORPORATION'S entire liability exceed the purchase price of this product. Some states and provinces do not allow the exclusion or limitations of incidental or consequential damages so the above limitations or exclusions may not apply to you. This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province.
