Directions For Use

Proper Care and Use. Clean and sanitize often. The use of this surface is a supplement to and not a substitute for standard infection control practices; users must continue to follow best practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface may reduce microbial contamination, but does not necessarily prevent cross-contamination.

Do not wax, paint, lacquer, varnish, or otherwise coat this product.

Directions For Use

Clean the GoldKey™ and Containment Case with any standard cleaning solution including, but not limited to, disinfectant wipes, isopropyl alcohol, or soap and water. Routine cleaning to remove dirt and filth is necessary for good sanitation and to assure the effective antibacterial performance of this surface. Cleaning agents typically used for traditional hard, non-porous touch surfaces are permissible. The appropriate cleaning agent depends on the type of soiling and the measure of sanitation required. Normal tarnishing or wear of this surface will not impair antibacterial effectiveness. Not approved for direct food contact or food packaging uses.

Directions For Use cont.

Items exposed to outdoor environmental conditions are not representative of indoor laboratory test conditions, and, therefore, may impart reduced efficacy if not cleaned when visibly soiled.

STORAGE AND DISPOSAL

Dispose of by recycling or put in trash.
