

Rechargeable Touch Table Lamp Instructions

V87877

Content:

2 Touch Lamps, 2 USB-C Cables, 1 Charging Block

Rechargeable Touch Table Lamp Operation:

1. To turn lamp ON or OFF, tap Touch Sensor located on top of lamp base. (See A) Tap once to turn ON, Lamp will be in Warm Light mode, Tap a second time, Lamp will be in Neutral Light mode, Tap a third time and Lamp will be in Cool Light mode, tap a fourth time and Lamp will turn OFF.
2. To adjust brightness, tap Touch Sensor located on top of lamp base. (See A) Touch and hold the sensor to dim light to desired level. Touch and hold a second time to increase light to desired brightness. Repeat these steps for each of the three Modes; Warm Light, Neutral Light, and Cool Light.

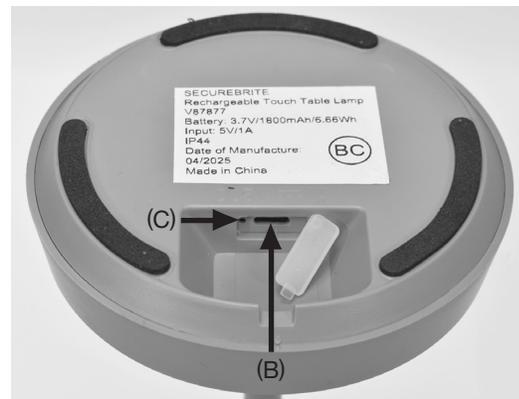

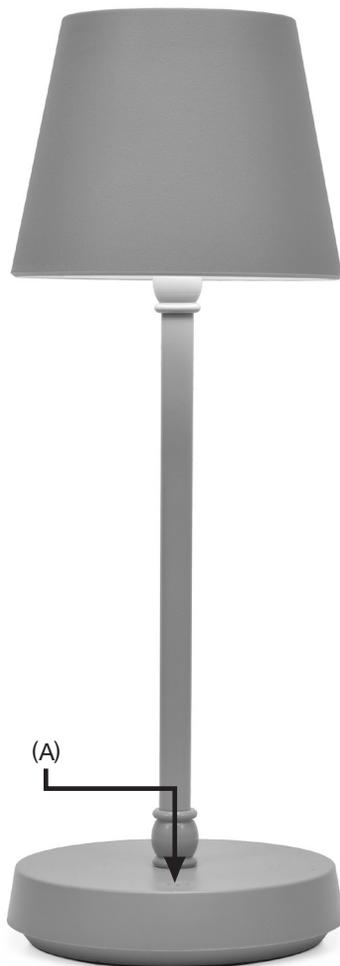

How to Charge Touch Table Lamp:

1. Plug the included USB Type-C Cable into port on underside of lamp base (See B). Plug other end into included USB Charging Block.
3. A Red Indication Light will illuminate when charging and will turn green when fully charged. (See C) Lamp will charge fully in approximately 3.5 to 5 hours.

Care:

- Turn off Touch Table Lamp when not in use to save rechargeable battery life.
- Do not attempt to repair the Touch Table Lamp if damaged.
- Clean the Touch Table Lamp as needed with a soft dry cloth.

NOTE: Do Not Attempt to separate the top and bottom halves of the lamp as damage will occur to internal electronic components.
