

The Look:

Volume for Short Hair

Before

1 Attach the nozzle attachment to the triStyler and rough dry the hair, at least 80%.

2 To create volume at the root, place the triStyler with the bristles extended at the root and brush up in an upward motion, slightly rotating your wrist.

3 Continue the same motion down the back of the head.

4 Hold for 5 seconds, retract the bristles and slide the triStyler out.

5 To help add shine and volume, spray CHI Smart Silk Voluming Hairspray on the finished look.

After
