A heat resistant holder for hot styling tools

## How to Use Your Hot Iron Holster

- ★ Remove product from packaging
- ★ Peel open the flap from the back of the pocket
- ★ Place flap on any SMOOTH, CLEAN, and DRY surface
- ★ Press on flap to ensure full contact with surface
- ★ Insert your flat iron, curling iron, or hair dryer
- ★ Have a great hair day!

**Note:** If your Hot Iron Holster loses grip, clean with water or rubbing alcohol and let dry before re-applying. Be sure your sink or countertop is free of dust and build-up and is dry when you apply the product.

**If you have any questions, please call our Holster Hotline at 760-298-2914**

The Hot Iron Holster is made of silicone and is heat resistant to 500°F.

Holster Brands will not be liable for any loss or damage arising from this product, whether direct, indirect, special, incidental, or consequential. Consult the manufacturer's instructions for proper use of your hot styling tool. The Hot Iron Holster is intended to hold one styling tool at a time. Never place additional items in the Hot Iron Holster with your hot styling tool. Always use caution when using hot styling tools and never leave unattended. Holster Brands is not responsible for misuse of hot styling tools.
