

The Science of Fabulous

# Volumizer Heat Brush

## CARE INSTRUCTIONS

- 1 Your appliance is virtually maintenance free. It contains no user serviceable parts, and no lubrication is needed.
- 2 Never wrap the cord around the appliance since this will cause the cord to wear prematurely and break. If the cord becomes twisted, untwist it prior to use.
- 3 Handle cord carefully for longer life and do not put any stress on the cord where it enters the handle. Avoid jerking, twisting or straining especially at the plug connections. It could cause the cord to fray and possibly break.
- 4 When not in use, your styling brush should be disconnected and stored in a safe, dry location, out of reach of children. Do not wrap the cord around the styling brush. Allow the cord to hang or lie loose and straight at the point of entry into the styling brush.
- 5 To remove hair from brush head, allow the appliance to cool before using the pointy end of a sectioning or Rat Tail comb to pull hair from between bristles.
- 6 If cleaning becomes necessary, disconnect the appliance from the power source and let it cool. Wipe the exterior with a damp cloth.
