

EVE•PEARL®

MAKEUP WITH SKINCARE FOR EVERY COMPLEXION

HD Dual
Foundation

The “Eve Pearl Method”: Reverse Contouring

Define your cheek bones and achieve a flawless finish in three easy steps:

1. Apply side 1, the lighter side of the foundation on your eyelids and below your cheeks (above the jawline). Use one side of the foundation brush.
2. Apply side 2, the darker side of the foundation on your cheeks, chin, nose, forehead and/or anywhere you have redness, discoloration and need extra coverage. Use the other side of the Foundation brush.
3. Use a damp non-latex sponge to blend the foundation into your skin to achieve a smooth, flawless finish.

Tip: The more damp the sponge, the more sheer the coverage of your foundation. Versatile for Full, Medium or Sheer finish.

EVE PEARL® HD Dual Foundations, Salmon Concealer® & Treatments and HD Cream Blushes are anhydrous products. Mottling (crystallization, spots, dots) commonly occur on top of anhydrous products and during extreme temperature changes. This is a normal occurrence and does not affect the product quality or function. They are perfectly good to use...Enjoy!!
