

THE GOOD LIFE

Simple Steps to an Easy & Quick 4K HD Beautiful You!

1. Starting near the back of the ear, begin buffing 4K Ultra HD Fantasy Foundation into the skin all around the perimeter of the face. Then lightly dust across forehead, nose, cheeks and chin.
2. Apply "Smokey Quartz" Evercolor Shadow Stick Extra all over lid from lash line to crease. Blend. Apply along the lower lashes to open up your eyes. Apply "Moonlight" Evercolor Shadow Stick Extra under your brow bone, in the inner corners of the eyes and to the center of the lid for an instant highlighted effect.
3. Starting at the roots, apply More is More Mascara and gently wiggle the brush while extending to the lash tips to create the look of instant volume. Next, turn the brush vertically to use the ingenious little bristles at the tip. Wiggle the brush from roots to tips.
4. Starting at the peak of the Cupid's bow, apply "Cherry Blossom" Ultimate Performance Lip Shellac down the upper lip. Repeat on the other side. Then connect the peaks of the Cupid's bow. Apply to bottom lip and press lips together to activate super shine.
