

Doll 10's Guide to Doll Perfection!

Doll 10 HydraGel Foundation

Dispense a dime-size amount of foundation to the back of your hand.

Pick up a small amount using the large end of the double-ended foundation brush and sweep onto skin with a light circular motion, starting at the center of the face and blending outward to achieve complexion perfection. Can also be applied with the fingertips or a sponge.

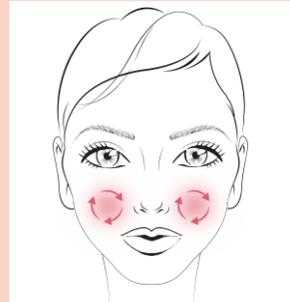

Doll 10 HydraGel Concealer

Using the small end of the double-ended foundation brush, apply concealer onto desired areas to help naturally brighten the look of dark circles and camouflage spots or imperfections. Gently blend until full and even coverage is achieved.

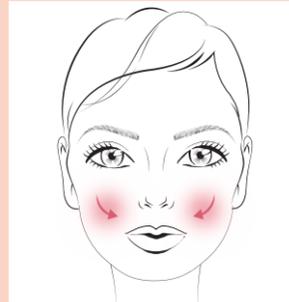

Doll 10 HydraGel Cheek Balm

Dab onto the desired area of the cheek with fingertips.

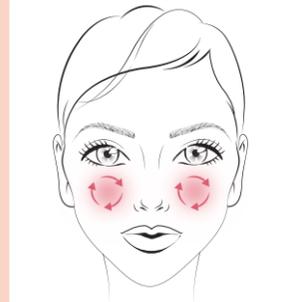

DOLL TIP : Check out the application techniques for different face shapes!

For an oval face, apply blush under the cheekbones in a circular motion.

For a round face, apply blush under the cheekbones and blend towards the mouth.

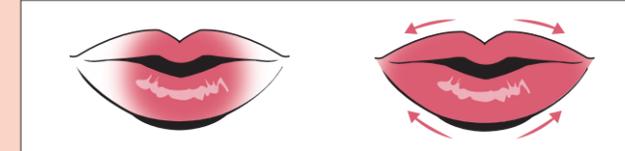

For a triangular face, apply blush on the apples of cheeks in a circular motion.

For a square face, apply blush to cheekbones and blend up toward the temple and down toward the jawbone as if you were drawing a "3".

Doll 10 HydraGel Luxe Lip Colour

Apply an even layer starting in the center of the lips smoothing out to the corners of the mouth.

Can be worn alone or under Doll 10 Luxe Lip Gloss for a beautiful, natural-looking pout.

Doll 10 HydraGel Luxe Lip Gloss

Start by applying your gloss on the middle of your bottom lip and smooth outward.

Apply a second coat for more intense shine.

Can be worn alone or over Doll 10 Luxe Lip Colour.

Doll 10 Effortlash™ Mascara

Position wand horizontally and wiggle from side to side from base to tip to coat lashes 360° and achieve the look of volume and length.

DOLL TIP: To finish the look, hold wand vertically and use the tip of the brush, stroking upward to separate lashes
