

## SMOOTH FINISH

### STEP ONE

Take a small section of hair for best results.

### STEP TWO

Hold Perfecter horizontally. Place your Perfecter at the top of your section closest to your head. Place hair section over the brush top, right against scalp. Pull Perfecter through hair from roots to ends for smooth finish.

### STEP THREE

Repeat on each section of hair.

### TIP

For even smoother results that will last until your next shampoo, use a pea size amount of Silksation Heat Activated Styling Cream on each section.
