# The Digital Control Panel

Plug power cord into 120V power outlet to begin.

B. On, Off, Lock Button: Press and hold to Power On or Off. While in use, press twice to Lock your selected temperature setting. To release from selected Locked position, press twice again.

C. & D. Plus & Minus Temperature Buttons need to change as below:

These Buttons will control temperature settings from 320°F up to 410°F. Buttons raise or lower temperature. There are 6 settings (320°F, 340°F, 355°F, 375°F, 390°F, 410°F).

E. LED Display: Shows current operating temperature.

Built-in Safety Feature

The **Illustra Beauty** styling brush will automatically shut off after 20 minutes, even if still in use.
