

illustra BEAUTY™ Temperature Precision Professional Hair Dryer Styling Basic Tips

1. For best results, comb or brush hair before drying and styling to prevent tangles and knots forming in hair.
2. Please follow the below Hair Type chart when using your illustra BEAUTY™ Temperature Precision Professional Hair Dryer and adjust the temperature and fan speeds according to your desired results.
3. When styling, divide hair into manageable sections, and clip upper layers on top of your head and out of the way.
4. It is easier and will produce better results if you work with underneath layers of your hair first before moving to the outer, upper layers.
5. Depending on the look you wish to create, use a suitable brush size or diffuser (not included) for best results. (Refer to Illustra Beauty styling tips Pgs. 9-11).
6. To use the TP settings for stable temperature drying, refer to the chart below for the appropriate setting.

Hair Tip: To retain style longer and add an extra burst of shine, finish with a light spritz of hair spray.

*Before using heated hair styling tools, applying a styling product with heat protection is recommended.

Hair Type	Temperature Range
Very Fine, Fragile, Naturally Straight, Curly, Dry, Damaged	Temperature & Fan Speeds 1-3 Bars; TP Low
Normal, Wavy, Medium Curly, Healthy	Temperature & Fan Speeds 2-4 Bars; TP Low or High
Thick, Coarse, Extremely Curly, Tightly Coiled, Very Long	Temperature & Fan Speeds 3-5 Bars; TP High

Creating illustra BEAUTY™ Hair Styles

Styling Smooth & Straight

Step 1: Comb or brush hair to remove tangles after washing or shower.

Step 2: Divide hair into small sections and clip up, leaving underneath hair free.

Step 3: Use a large brush over 1.5" for smooth styling; starting close to scalp, take a small section of hair, using brush to pull hair out and down for a smooth and sleek look.

Step 4: For more body and wave, wrap hair around brush in either an upward or downward motion for bounce and movement.

Step 5: Repeat on all sections until achieving your desired and updated illustra beauty look.

Hair Tip: To add an extra burst of shine and prolong achieved style, finish with a light spritz of hair spray & enjoy your look!

Styling Waves & Curls

Step 1: Comb or brush hair to remove tangles after washing or shower.

Step 2: Divide hair into small sections and clip up, leaving underneath hair free.

Step 3: Starting close to scalp, take a small section of hair, and using a brush size less than 1.5", use a straight and downward motion to smooth hair first, then as hair becomes more dry, wrap around brush and hold in place while drying to create the wave or curl desired; the smaller the brush, the tighter the curls; for very long hair it is not recommended to use very small brush sizes. For very tight curls, use low settings with the concentrator or your own diffuser to retain natural curls.

Step 4: Repeat on all sections until achieving your desired and updated illustra Beauty look.

Hair Tip: To add an extra burst of shine and prolong achieved style, finish with a light spritz of hair spray & enjoy your look!

Styling Short Hair & Adding Volume

Step 1: Comb or brush hair to remove tangles after washing or shower.

Step 2: Divide hair into small sections and clip up, leaving underneath hair free.

Step 3: Starting close to scalp, take a small section of hair, hold taught, place between plates and close firmly.

Step 4: To create volume: use a small brush and roll hair under close to scalp to create a slight bend, and leave for several seconds; follow with cool shot function to set; after “volumizing” each section, you can then choose to finish styling for your chosen look. For curly styles, use a smaller brush; midsize brushes help create volume and waves; larger brushes help create straight and sleek styles, however the brush size will need to accommodate your hair length.

Step 5: Repeat on all sections until achieving your desired and updated illustra Beauty look.

Hair Tip: To add an extra burst of shine and prolong achieved style, finish with a light spritz of hair spray & enjoy your look!
