

How to determine the right size wig for you? Measure the circumference of your head from the front hairline, behind your ear, to the nape of your neck, to your other ear and then back to the front hairline. Jot down your measurement then consult the table below.

	Ear to Ear	Circumference	Front to Back
Regular	13.5"	22"	14.25"
Plus	14"	23"	15.5"
