

Portable light

You can use the light without mounting it to the wall, or using it on the stand. Simply bring the light anywhere you need extra light.

USAGE

1. Tap the Touch Sensor on the top of the light to turn the light on (**White light/Low setting**). See Diagram 2 on right. Keep tapping to select **Medium setting**, **High setting**, **OFF** and back to **Low setting**.
2. **Tap and hold** the Touch Sensor to change the light setting (Warm light, White light and Daylight).
3. Once desired light setting is set, tap the Touch sensor to select Low, Medium or High setting.
4. Memory feature: Once the light stays on for 30 seconds or more, the last light setting is saved. Next time you turn the light on, it will return to the last used setting.

SPECIFICATIONS

Light source: 24 pcs 2835 SMD

Battery: Built-in Rechargeable Battery, 1200mAh

Power: 4.5W

Light Modes: Low, Medium, High

Color Temperature: 2800K (Warm light), 3700K (White light), 5500K (Daylight)

Charging time: 3-4 hours

Working time: 10 hours (Low), 4.5 hours (Medium), 3 hours (High)

Charging port: Type USB-C (with 1x 2.6ft/80cm cable)

This product uses a Polymer battery. When it can no longer be used, it should be removed from the unit and recycled. The battery must not be incinerated or composted. The battery can be taken for disposal to any local retailer participating in the national recycling program sponsored by the RBRC (SEE RBRC seal). Call your local details, or the RBRC hotline at 1-800-820-8837 for the closest recycling center to you.

INSTRUCTIONS

WARNING:

- The lamp contains a rechargeable battery. Do not expose the battery to extremely hot or cold environment (above 140°F or below -22°F), as it can cause damage.
- Do not immerse the product into water or handle it with wet hands. Do not use it in humid and wet conditions.
- Do not disassemble or modify the lamp in any way. If repairs are needed, always contact a qualified service technician.

CHARGING LAMP

1. Insert the USB-C end of the provided charging cable into the charging port located on the side of the lamp. Insert the other end into any USB power source (USB adapter, power bank, etc.).
Do not use a charger with more than 5V. See Diagram on right.
2. The battery indicator light will light up red, indicating charging is in process.
3. It will take approximately 3-4 hours to fully charge your lamp.
4. Once the unit is fully charged, the battery indicator light will turn green.

USB-C Charging Cable

ASSEMBLY AND INSTALLATION

This lamp can be used in 3 different ways:
Use it with a stand, mounted on the wall or use the light alone.

Desk Lamp

1

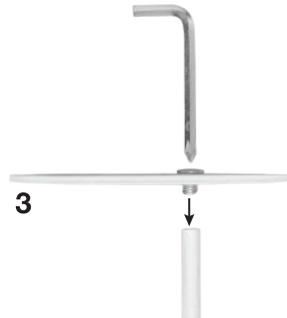

Remove the screw from the bottom of the stand. You can use the provided wrench to loosen it.

2

Insert a screw through an opening in the base. Make sure to insert it so the head of the screw fits into the beveled edge of the opening.

3

Place the base with a screw over the bottom of the stand. Use the provided wrench to screw it in clockwise until tightened.

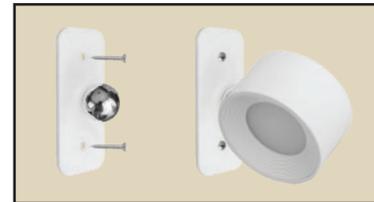

4

Place the magnetic opening of the light over the metal ball. A strong magnet will hold it in place and will allow it to rotate the light in all directions.

Wall Installation

USING SCREWS/ANCHORS

- Drill holes matching the pattern on the bracket and install plastic anchors (included).
- Attach the bracket using 2 screws (included).
- Place the magnetic opening of the light over the metal ball to fully assemble.

USING ADHESIVE TAPE

 Clean the area before installing. Let it fully dry.

- Peel off backing from the adhesive tape (included) and place it with the adhesive side down on the back of the bracket. Press down for a few seconds.
- Next, peel off the other side of the tape.

- Press the bracket firmly onto the smooth surface for a few seconds to make sure it adheres.
- Place the magnetic opening of the light over the metal ball to fully assemble.
