

Lighting

 Neutral White / True neutral white (no red or blue hues), is recommended for getting photo-ready.

 Soft White / This warmer hue (free of blue light) is perfect for creating a makeup look for an evening occasion like a date night or for night-time skincare routines to help ease you into sleep.

 Natural Daylight / All-round ideal light for daytime makeup as it simulates natural daylight.

Stay Powered

O1 You will find the USB-C port located at the bottom of the Mini Taylor. Insert the cord and connect the other end to a power source. The battery takes approximately 1h 20mins to fully charge.

O2 When charging, the indicator light shows red, and turns green when fully charged.

Warning

- 1/ Keep this product away from young children and pets.
- 2/ The mirror is not waterproof. To protect against electrical hazards, do not use it in the bath or shower.
- 3/ Do not place the mirror in direct sunlight. Reflection of direct sunlight by the mirror could cause a fire.
- 4/ Use this mirror only for its intended purpose.
- 5/ This product contains glass and may shatter if dropped. Handle with care.
- 6/ This product contains a lithium battery and should be recycled or disposed of according to state and local guidelines.

Battery Disposal

Note: Opening and disassembling the device will void its warranty. The process is not reversible. This action must only be undertaken when the device is ready to be disposed of.

All batteries should be recycled or disposed of as per state or local guidelines, and should not be thrown away in household waste. To remove the battery, you need to disassemble the unit and carefully extract the lithium battery. Wear gloves during this process for your safety. Do not dispose of it in a fire as the battery will likely explode and cause injury.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Mini Taylor

Three lighting modes

Choose from neutral white, soft white, and natural daylight to simulate any light environment for optimal makeup and skincare application.

Two mirrors

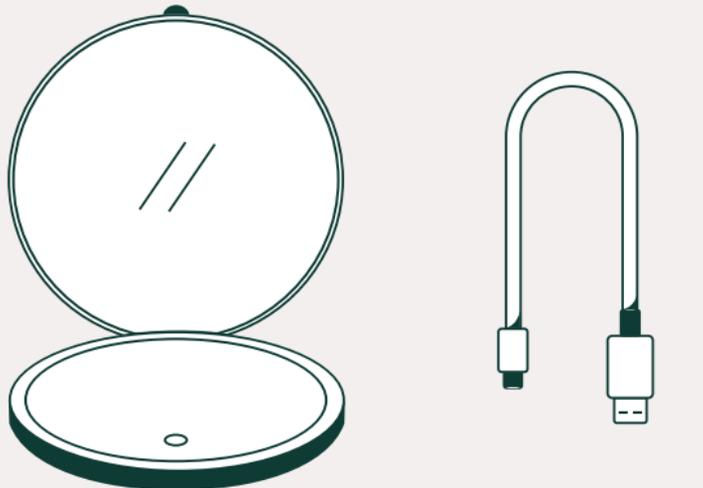

1x and 10x magnification made from premium quality glass. The dual magnification lets you choose between a detailed view and a full view of your reflection.

Ready-to-go

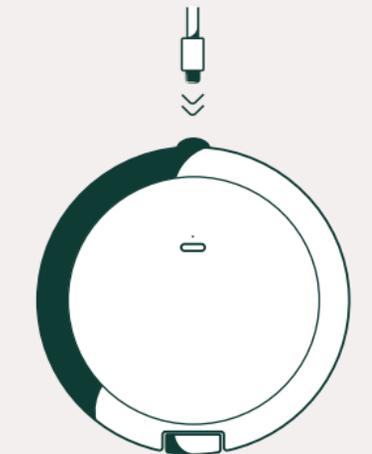

With a 4" diameter, Mini Taylor is light enough to carry around in your purse, luggage or bag for easy access.

Eco-friendly power

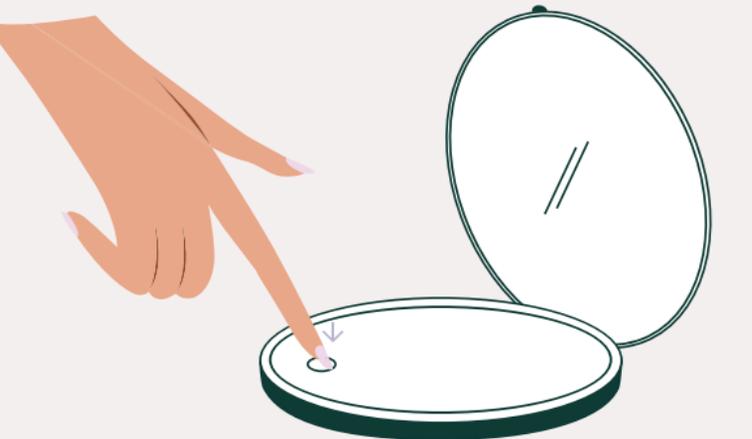

Mini Taylor is designed with a rechargeable battery that lasts up to 8 hours with a full charge to reduce waste and save power. The smart sensor allows for automatic on/off when you open and close the mirror.

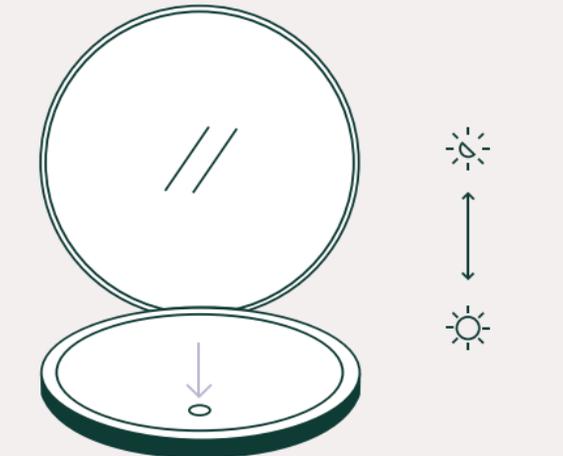

Let's get it started

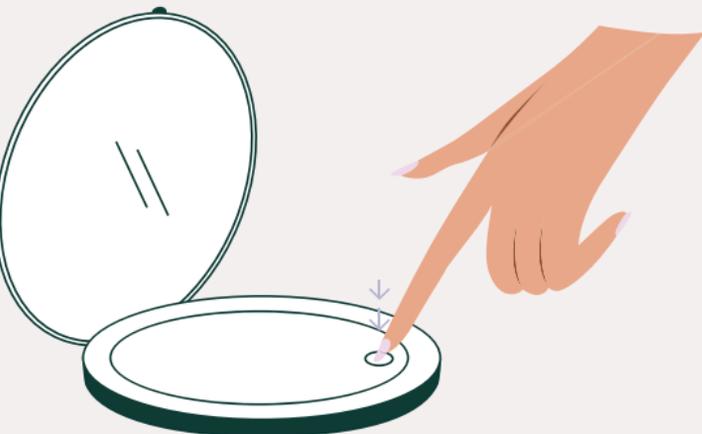

01 We recommend charging Mini Taylor when you first receive it to ensure the battery is fully powered. Follow the instructions in the Stay Powered section to read how.

02 To turn on the LED lights, simply open the mirror. To cycle through the three light settings, tap on the power button. Mini Taylor will remember the last setting you used when you power it back on.

03 Holding down the touch button will dim or brighten the light. The light is dimmable for every setting.

04 Double tap on the touch button to turn off the lights on the Mini Taylor. The lights will also automatically turn off after 15 minutes of continuous usage to conserve power.

FCC responsible party: RQ Innovation Inc.
Address: 465 Turnpike Street, Unit# 120, CANTON MA (Massachusetts), USA
Website address: www.fancii.com

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1 / This device may not cause harmful interference, and
2 / This device must accept any interference received, including interference that may cause undesired operation.
