LUNA COMPACT
User Manual

Size: 130x130mm

Overview

1. LED Light Rings (x2)
2. Touch Sensors (x2)
3. 7x Magnifying Mirror
4. 1x Mirror
5. Indicator Light
6. Charging Port
7. Charging Cable

CHARGING YOUR MIRROR

Charge your mirror fully before first use. When the brightness of the light starts to go down, it is time to charge your mirror. Plug the small side of the charging cable into the charging port on the mirror. Connect the USB side to an adapter and plug it into the wall.

CHARGING (Cont'd)

A red light will turn on while the product is charging. It can take several hours for the mirror to fully charge. The light will turn green when charging is complete.

Promptly unplug your mirror once it is fully charged.

USING YOUR MIRROR

Charge the mirror fully before first use.

One side of the mirror is a regular flat mirror, the other is a 7x magnifying mirror. To properly see in the magnifying mirror, you need to get very close to it.

Touch the power sensor to light up the mirror. **(fig. 3)** It will power on in Cool light.

Touch again to switch to Warm light.

Touch again for Daylight. **(fig. 4)**

fig. 3

fig. 4

fig. 5

Brightness:

Once you are in your desired light temperature, you can hold down on the power sensor for 3 seconds to turn down the brightness. **(fig. 5)**

Hold down on the power sensor again to return to full brightness.

Now you can continue to cycle through light temperatures and power off.

Note: The light will shut off automatically if there is no operation within 25 minutes after powered on.
