Powerizer COMPLETE

THE CLEAN COMPANY

We're a next generation company, but we're also kind of old school. We believe in an honest day's work and treating others with respect. We think that good clean living means reducing toxic waste and preserving the earth for future generations. We believe that meaning comes through service and that quality should be guaranteed. We say what we mean and do what we say.

We are the clean company. Our mission is to simplify your life with a quality product that does everything it promises.

READ BEFORE USE

1. Always test in an inconspicuous places before use. Safe for use on color safe fabrics only.
2. Contains a color safe bleach. Do not use on wool, wool blends, silk, silk blends, leather or fabrics labeled as dry clean only. Not for use on jewelry, latex paints or wood products.
3. Powerizer works in all temperatures but is best in warm or hot water. Do not spray. Once mixed with water solution should be kept in a squeeze bottle or open container.
4. Adding more Powerizer than recommended may increase risk of color loss.
5. Once the product is activated with water it can build pressure. Do not store solution in a closed container.
