BATTERY REPLACEMENT

The battery should be replaced when the watch becomes slow or does not function. Most watch repair centers or jewelers are qualified to properly replace the battery. It is important that the correct battery be used. Batteries are not warranted.

SPECIAL CARE

Watches are fitted with rubber seals that require replacement over time. It is suggested that it be inspected and cleaned by a qualified jeweler or watch repair technician every 2-3 years.

Your watch may be cleaned with mild soap and water and buffed with a jewelry polishing cloth to maintain its sheen.
