More than 20 years ago, I started designing temp-tations to create beautiful stoneware pieces that would go from oven, to table, to refrigerator, to microwave, to dishwasher – all in one dish. I wanted to give busy families a way to make sharing a delicious, home-cooked meal easy and achievable, no matter how hectic life gets.

As a lifestyle expert, I know how important it is to create a cohesive look and feel throughout your home. I've broadened my collections over the years, and now they can extend throughout your entire space. I've designed glassware, cozy accents, seasonal decor & outdoor pieces in patterns and colors that suit every home.

You can just simply sit back, relax, and enjoy your wonderful home and the people that fill it – throughout the holidays and every day.

Thank you for becoming part of my ever-growing temp-tations family. I hope these designs become a beloved part of your home for years to come!
